TOWNS ALMOST DESTROYED.

ROME, November 21.—News from the districts shaken by the recent earthquakes comes in slowly, but every dispatch shows that the devastation was far greater than the early reports indicated. Thirty-eight communes suffered severely. San Procopio, Oppido, Manertino, Seilla, and Palmi, all in Reggio di Calabria, and with a total population of some 25,000, are little more than heaps of ruins. Many destitute families from the ruined towns are piliaging the damaged shops and houses. Troops have been posted throughout the unfortunate districts to protect property.

The total damage is estimated now at nearly 7,000,000 lire. The collection of taxes has been suspended in most districts of Reggio di Calabria.

DEATH FROM HYDROPHOBIA.

No Doubt About the Nature of the Dis ease-Horrible Suffering.

JACKSONVILLE, FLA., November 21 A special to the Times-Union Gainesville, Fla., says: Mary Anderson died here to-day of hydrophobia. The woman suffered untold agony. The sight, or even the suggestion of water, threw on the 27th of July, inflicted a wound on the woman's hand. The animal was very ferocious, and fastened its teeth in the woman's hand so fiercely that its jaws had to be forced open in order to release her. Dr. Lancaster attended the woman, and dressed her wound, and thought, the wound was entirely cured. thought the wound was entirely cured. She was depressed whatever, and for a time she attempted to drink water, but it was forced back before it entered her threat.

There is no doubt as to the nature of the disease, as the doctors of this city have made it the subject of much study during the past few months, and agree that this was hydrophobia.

PREACHER COES TO PRISON-

Convicted of Obtaining Money Unde

False Pretences-His Career. BALTIMORE, November 21.-Solomor T. Buck, for twenty years an Evangelical preacher, has been convicted of receiving money under false pretences, and sentenced to three years' imprisonment in the penitentlary.

Buck engaged a number of agents last spring to sell a water-filter, requiring each to deposit \$50 to secure him against loss. He disappeared without settling up with his employees, and was captured in Blossburg. Tloga county, Pa., by local detectives.

The prisoner is 56 years old. Until 1876 he was a well-known member of the ministry in Pennsylvania, belonging to the Evangelical Association. He was a contributor to the religious press, and also holds the copyright on a number of illustrated editions of the Lord's Prayer and the Ten Commandments, which bring him in a good income. He has a wife and a large family of children.

The minister has considerable literary talent, and is now at work on a book talent, and is now at work on a book which is to be issued under the title of "From the Pulpit to the Penitentiary" as soon as he has served his term.

One of Oliver Wendell Holmes's Happy Phrases.

The Great Poet Applied It to William Cullen Bryant.

In a recent editorial the Boston Heralo, in speaking of our great poet, Oliver Wendell Holmes's happy phrase applied to William Cullen Bryant at the recent commemoration of the latter's birthday, says: "Dangerously good health' fits the case of a great many people, young and old, who trust to their strong constitutions and wear themselves out before they know it. This accounts for the fact that so many people in robust fact that so many people in robust health are cut down, while those who are less vigorous live on by recognizing their own weakness."

No words are truer.

The sick, as a rule, take care of themselves, and know enough to use medicines when necessary. It is the person in robust health, who, by overwork, strain upon the nerves, or dissipation, gets just a little out of order, has headaches, becomes nervous and irritable, is unable to sleep well, and wakes tired mornings, with duli-feeling head, constituation, no appetite for breakfast, and a general feeling of inssitude, weakness, and lack of ambition to take hold of work, who is in a dangerous way. Such a person has presumed upon a good constitution, and undermined the health. The right medicine must be had and taken right medicine must be had and taken at once, or the apparently trivial symp-toms will quickly result in utter breaking

appetite and constipation of the bowels.
"I gradually grew worse until life almost seemed a burden, and at last I had nervous prestration. My nerves were in a terrible condition. I felt too bad for

Greene's Nervura blood and nerve remedy, and I did so. After taking four bottles, I am happy to say that all my troubles disappeared, and I cannot say enough of this wonderful medicine.

"I have lots of friends who can also enough of this wonderful medicine.

"I have lots of friends who can also testify to its great merits. It, therefore, behoves all who are not feeling well, or who are run down in health; in fact, all who are out of order in any way, to use this grand medicine—Dr. Greene's Nervura blood and nerve remedy—at once. It will make you well and strong."

It is not a patent medicine, but the discovery and prescription of the well-discovery and prescription of the well-discovery and prescription of the well-discovery in the strong of 25 west Fourteenth work of this stables, with one fine horse, a large lot of hay, pease-fodder, and forty-two bales of cotton. derstood that the matter will not be dropped until a thorough investigation is had.

Sugar was the only stock on the list that refused to be influenced by the demoralization in the Grangers. In the early trading the stock was marked up 1½, to 2½. When the Grangers broke there was a recession to 90, but in the last half hour the stock sold up to 9½. Its strength steadied the general market for a time. Near the close, however, there were renewed liquidations in Quincy, and the stock broke to 70%. The closing was feverish.

Net changes show losses of ½ to 2½ per cent. Burlington leading. Sugar gained 1%, and Reading ½ per cent. The total transactions were 287,561 shares, ef which 95,990 were Burlington, 62,590 Sugar, 42,000 St. Paul, and 14,000 Northwestern.

In the afternoon the market was unfavorably influenced by the further rise in the actual rates of sterling exchange, and by talk of a premium on gold. In regard to the latter it was said that intending purchasers of the new bonds had paid a small premium for round amounts of gold. Bullion dealers say that the matter has no significance whatever, and that the buyers evidently intend to add the premium, if they have actually paid one, to the selling price of the bonds, and in this way even up the trade. The point is made that a premium is unnecessary, for the reason that the gold can be obtained by presenting legal tenders at the sub-Treasury. There was also some vague talk about reports incited by the strength of sterling exchange.

Railway bonds were less active, and the market weaker in tone.

CHICAGO PRODUCE MARKET.

CHICAGO, LL. November 21.—The

Coffee-Steady; No. 7, 1946.
Other articles unchanged.
CHICAGO, ILL., November 21.—The buils for a long pull, who have been holding their December wheat, changed into May in large numbers to-day, but many sales of the former were made without an equivalent purchase of the latter, thus causing a perceptible widening of the difference in price between the two. During the winding-up minutes of the seasion offerings became remarkably free, and an important decline took place, an average loss of 1½41½c, for the day being shown by the final quotations. May wheat opened at from 60½ to 60½269½c, and declined to 50½4659½c, where it closed, at the lowest above stated. Cash wheat was 4c, lower.
Corn—Against strength in corn there were heavy receipts, a large estimate for to-morrow, and fine weather. The weakness of wheat was also a formidable ally to the other weakening items. The trade was not brisk, and no disposition to buy was seen. May corn opened at 49½49½c, ranged between 49½ and 48½c, and closed at the inside—½c, under yesterday. Cash corn was weak and ½c, lower.
Oats did not present any weakness until just near the close, when they were affected to a moderate extent by the surroundings, and eased off a fraction. Inactivity prevailed at most times. May closed ½4½c, under yesterday. Cash oats were steady, prices remaining unchanged.
Provisions—There was no excuse for strength in product to-day, and none was expected. The run of hogs was heavy, and the prices at which they were selling showed declines. Speculatively, no encouragement was offered, the grain markets casting a gloom over the trade. At the close there was moderate covering, which helped prices back in some degree, January pork closing 5c, under yesterday, January lard 2½c, under, and January ribs 2½d5c, under.

The leading futures ranged as follows:
Opening, Highest, Lowest, Closing, which helped prices back in some degree, January pork closing 5c, under yesterday.
